

AS A BARTENDER, I HAVE
ONE OF THE WORLD'S
MOST DANGEROUS JOBS.

SECONDHAND SMOKE KILLS!

When I show up to work I'm forced to breathe in more than 4,000 chemicals, including banned pesticides, arsenic, rocket fuel and formaldehyde, just to name a few. In fact, just 20 minutes in my workplace environment can start the onset of heart disease. The bottom line—I have one of the world's most dangerous jobs and secondhand smoke is killing me.

Please visit www.smokefreeindy.com to find out how you can help make my workplace, and other places of business like mine, a safer place to work.

Smoke Free Indy
ask for it. expect it.
