

Clearing the Air: The Economic Impact of Smoke-Free Policies

Do smoke-free ordinances unfairly burden restaurants and bars and significantly decrease sales? Will businesses lose customers? Find out the facts about the real economic impact of smoke-free policies on businesses in a forum with Dr. Andrew Hyland, a Research Scientist at the Roswell Park Cancer Institute. Dr. Hyland's research includes evaluating the impact of policies aimed at reducing the morbidity and mortality associated with the use of tobacco products and the economic impact of clean indoor air laws.

For more information about Dr. Hyland, go to this link:

http://www.roswellpark.org/Research/Research_Staff/Hyland_Andrew_PhD.

Local experts will also be discussing the impact on Indiana's businesses. Come join us and clear the air about businesses and smoke-free policies.
