

DO YOU WANT TO PROTECT ALL WORKERS IN INDIANAPOLIS FROM THE DANGERS OF SECONDHAND SMOKE?

Support a comprehensive smoke free workplace ordinance.

**Everyone deserves
smoke free air.**

- Spending two hours in a smoky bar is equal to smoking five cigarettes.
- Workers exposed to secondhand smoke are 34 percent more likely to get lung cancer, which represents 3,000 lung cancer deaths per year in non-smoking adults.
- For every eight smokers who die from smoking, one non-smoker is killed by secondhand smoke.
- Secondhand smoke is the 3rd leading cause of preventable death in the U.S., with an estimated 53,000 deaths annually.

**Smoke
